

Looking to build a custom house in Pickens County? You can search for available lots right from our website!

Building a custom home can feel like a lot to manage, but finding a lot is as simple as using the search feature on our website. Go to <https://precisioncustomhomebuilders.com/>, and look for the top navigation bar to find the “Lot Search” option. Hover over “Lot Search” and a drop-down menu will appear with search options for lots in Cherokee, Bartow, and Pickens counties! Whether you know exactly where you want to find a lot, or are still searching, this is a great tool to aid in your search!

Because of our partnership with the local Path & Post Real Estate team, we offer you the most efficient and easy search for available lots! Using our website, instantly search for lots, view photos, and customize your search criteria depending on the acres, location, price, and other features you want!

Once you find the lot search page for the county of your choice, you can access features on the Path & Post search engine, including confining your search to a custom drawn area on the map. With this search feature, you can make sure to stay in a certain school district or see only areas you're interested in.

The real estate market can be tough, so if you don't immediately see the perfect lot for your new custom home, the site allows you to set up a saved search and get notifications when a lot matching your criteria goes up for sale. Whether you already purchased your lot or are still looking, give us a call and we will help you build your custom dream home!
